Portion Paid by Property Tax: \$151,128,318
District Budget Per Pupil: \$34,302
Property Tax Levy Per Pupil: \$31,863

The Village of Scarsdale is a well-resourced suburban community located in central Westchester, with a history dating to the late 18th Century. Many residents are professionals and business executives who consistently demonstrate strong support for the educational system. Scarsdale Schools benefit from robust partnerships with the Scarsdale Education Foundation, Maroon and White Booster Club, and Parent Teacher Associations at each school.

The District has been recognized nationally as a premier educational institution since the 1920s; today's program continues to reflect a rich mix of tradition and innovation. In classes small enough to know their students, teachers address individual strengths, passions and challenges. The Scarsdale schools seek to sponsor each student's full development, enabling youth to be valuable contributors in an interdependent world. The Scarsdale School District is a founding member of the Global Learning Alliance, a consortium focusing on the definition of a world-class education with partners in Singapore and Helsinki. Scarsdale's strategic plan goals reflect a dedication to student-centered learning, holistic wellness, sustainability, and the meaningful and ethical application of technology.

Among noteworthy offerings are world language at the elementary level; a house structure at the Middle School, ensuring coordinated and student-centered instruction; alternative programs for secondary students who prefer smaller settings; Advanced Topics classes at the High School, informed by university professors and replacing Advanced Placement; an emphasis on teaching critical and creative thinking, collaborative learning, and interdisciplinary studies; a culturally responsive education with a focus on diversity, inclusion and equity; an arts education program using the premier arts institutions; a sustainability initiative; and a Center for Innovation, sparking evolutions in spaces and instruction. Students take part in an exemplary athletic program consisting of 35 sports and a wide range of extra-curricular activities, many of which are student generated and led. Scarsdale is committed to supporting the diverse needs of our students and has expanded and diversified K-12 programming in special education. Our recent hybrid and virtual experience has powered a rapid acceleration in technology and accompanying pedagogy, while affirming the strength and importance of hands-on, collaborative, and social learning.
