Once you have setup your user account, you can discard your activation key as you will not need it ever again. Keep your user name and password safe. We advise that you do NOT write down your user name and password, however, we do recommend that you write down a hint which will help you remember your user name and password, but which would not allow anybody else to guess what they are.

If you receive the following pop-up message when you try to create your user name and password, your password did not comply with the 'strong password' rules. Read the message carefully and try to set up a user name and password which complies with all specified rules. If you still experience problems, please contact [support](#).

Once you have successfully entered a user name and password, you will see the below confirmation message. You can then go to the Parent Portal login page.
