

How do I cite a screenshot or frame capture in a caption and in my works-cited list

The caption usually appears beneath the image. If you discuss the work from which the screenshot or frame capture is taken, the caption should act much like an in-text reference and provide the information needed as a key to a works-cited-list entry as well as the time stamp where the screenshot or frame capture appears in the work:

Fig. 1. Still from Hitchcock, *Psycho* (1:48).

Works Cited

Psycho. Directed by Alfred Hitchcock, 1960. Swank, digitalcampus.swankmp.net/sshs372377/watch/569DD620F2255311?referrer=direct. Accessed 16 Nov. 2020.
